Rosenwald's Daily Store News

**Expert Watch Repairing
and Engraving**

SUITS—COATS—DRESSES—MILLINERY—SHOES AND FABRICS

are occupying the undivided attention of all women who have learned through experience that when we speak of fashion, we speak authoritatively, from information gained not through superficial research, but from the very fountain heads in the fashion centers of the world, whose word is law beyond contradiction.

In presenting these new Fall Styles, we have acquired only that which is best. Styles are no longer sectional, for that which is best is as eminently correct in this city as upon Fifth Avenue, New York, where styles are created.

DISCRIMINATING MEN ARE FINDING SUITS IN THIS STORE— STYLE, TAILORING AND SERVICE ARE MAKING MANY LOYAL FRIENDS

These are the men who most of all once doubted the ability of a department store to give actual clothing service to men, and now they have had the practical demonstration of a department store giving **real clothing service plus**. These men have learned that the policy of this store is to have things right in the first place, to avoid controversy, and to make good without "ifs" is worth a great deal to the customer.

Our clothing is designed by one of the most artistic and skilled designers in America. He is reported to receive as large a salary as the President of the United States. We know this—that he knows how to design men's clothes, and then knows how to get them made as he intended they should be.

And then we know, too, that the manufacturing tailors of these clothes spend a whole year ahead in selecting the clothes. Pretty patterns don't sell them—they go down deep into the hidden threads and find out all the private history of that particular piece of goods and then if "there is no skeleton in the closet" you may wear and wear a suit of it.

Ding! Dong! The School Bell Is Calling

And in a few short days the children will be off to school. Today you are wondering if you will have Mary's dress finished, or Tommy must have some new blouses. Our Children's Store has answered these perplexing questions by preparing with a great store of all the apparel needs that vigorous school boys and girls will need.

The service of the Children's Store is at its best in helping you at this time—and in many instances helping with rather more than the usual economies.

Our Children's Store—Second Floor

A Most Attractive Scarecrow

Once a farmer, harassed by the lack of success of his homemade scarecrows, decided to have a real one made by a figure maker. It was a work of art, almost human enough to speak.

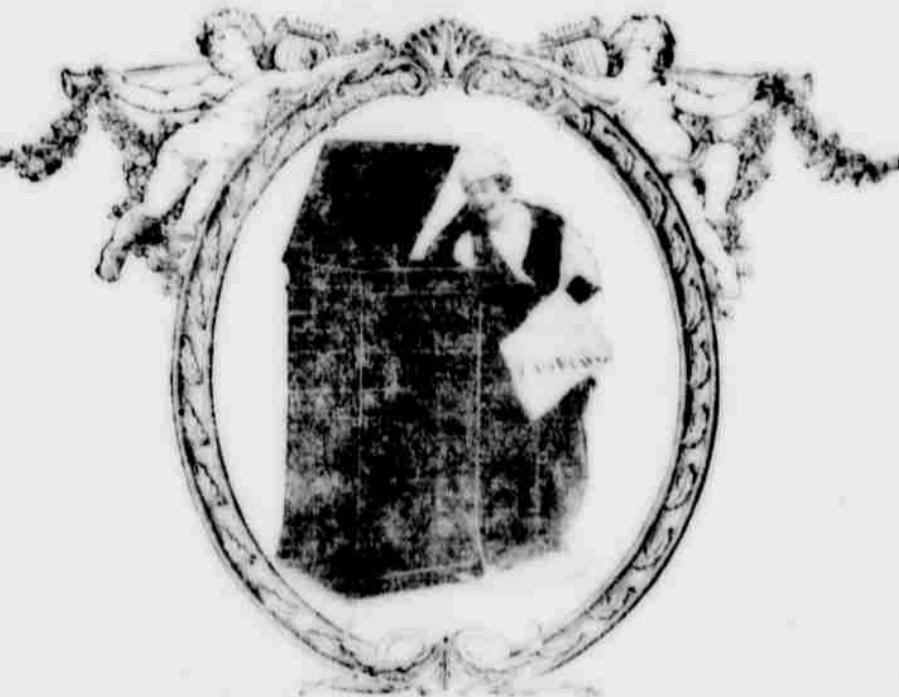

Erected in the middle of a cornfield, the birds eyed it with suspicion, but not for long, and then a convention to discuss who sent what their new friend might be and when they would fit it with life, every bird helped itself to the corn.

These are cornfields, and other well-tended fields, so to speak, this time of year, filled with things for birds and the home—and not a scarecrow of a wrong price or a disreputable attendant to frighten one away.

Marie Rappold of the Metropolitan, proving by direct comparison that her brilliant and appealing voice is flawlessly re-created by the New Edison.

Madame Rappold and many other great artists have proven by direct comparison that Edison's Re-Creation of their

work cannot be distinguished from their actual performances. Symposium of Musical Reviews from America's leading newspapers sent upon request. Hear Edison's Re-Creation of Madame Rappold's brilliant voice, and then hear Madame Rappold herself at the Metropolitan, in New York, or when she is in tour.

COME TO US AND ASK TO HEAR

The NEW EDISON

The new Edison invention, which recreates all forms of music so perfectly that Edison's Re-Creation cannot be distinguished from the original. We shall not attempt to show you a talking machine. The New Edison is not a talking machine. It is the world's most wonderful musical instrument. More than

ONE THOUSAND DIFFERENT SELECTIONS

(different examples of Edison's new art) and other new selections are being issued weekly. We are licensed to demonstrate and sell this new Edison invention.

Homelike Draperies for Fall

The days will soon shorten, seemingly into hours, and the indoor evenings will soon begin. Bright, cheerful draperies will add much to the pleasure of being inside when cool evenings begin.

The Markets

New York Stock Exchange

New York, Aug. 31.—The belief of the financial community in an avoidance of a railroad strike was again indicated by today's higher range of prices, stocks of all descriptions participating in the advance. The close was strong.

Marines, Steel, Reading and Kelly-Springfield Tire were the leaders of the forward, other prominent stocks moving in uncertain fashion. Marines lost their early gains on realizing sales but displayed a strong under-tone. Important rails were only nominally lower. Speculative specialties such as Industrial Alcohol, American Coal products, Standard and South Pacific sugar lost 2 points. The entire list strengthened at mid-day on the more encouraging news from Washington. Bonds were steady. Copper led the general advance of the intermediate section. Impairment, although a new record, on its rise to 67%, with gains of 1 to 2 points elsewhere, steel, reading and other representative issues made similar response to renewed demand. Last sales:

American Steel and Tinings, 98%; American Sugar, 118%; A. T. & T., 130%; Anaconda, 182%; China, 52%; Inspiration, 56%; Northern Pacific, 119%; Reading, 105%; Southern Pacific Ry. Div., 97%; Texas, 194%; U. S. Steel, 91%; U. S. Steel pd., 117%; Union Pacific, 140%.

Chicago Produce

Chicago, Aug. 31.—Butter, higher; creamers, 369-375.

Lard, higher; receipts, 7,335 cases.

Meat, higher; receipts, 1,000 lbs.
